Platform Engineering Manager with over 17 years of progressive experience in IT operations, specialising in DevOps, platform engineering, and technical leadership. Skilled in managing teams, driving projects, ensuring compliance, and optimising systems for high performance and security across diverse industries including banking, e-commerce, and telecommunications. Excel at working collaboratively in teams, leveraging strong interpersonal and communication skills. Organisational abilities, including a keen sense of service and problem-solving, ensure meet business needs efficiently. Dynamic, flexible, and quick to adapt to changing environments, always prioritising the needs of the team and the organisation.

EXPERIENCE

October 2022 - May 2024

Platform Engineering Manager *Just Eat Takeaway.com*, London, UK, UK

- Managed UK Platform Engineering team (8), overseeing EKS clusters and AWS resources
- Provided technical leadership, fostered team independence, and ensured compliance and risk management
- Emphasized stakeholder management, Agile practices, and team development
- Setting vision and roadmap with team
- Gathering requirements and feedback from different teams, stakeholders and senior leadership
- Cross collaboration across different teams and EMs
- Ensuring are all aligned and have common strategy to achieve goals
- Hands on AWS/EKS when required.

April 2017 - October 2022

Principal Platform Engineer *NatWest Group*, London, UK, UK

- Led projects in tooling systems, SSL cert management, and SaaS integration
- Managed team, directed technical architecture, ensured security and compliance, and supported operational incidents
- Developed high-level architecture designs and drove technology roadmap
- Stakeholder and vendor management
- Leading team of engineers (10) and main point of escalation for L2 support requests
- Hands on AWS and bank infrastructure when required
- Led migration from on-prem VMware to AWS of several bank projects.

February 2012 - April 2017

Senior DevOps Engineer *Hotels.com (Expedia Inc.)*, London, UK, UK

- Supported high-traffic web platforms, managed CI/CD pipelines, and automated deployments using AWS, Terraform, and Ansible
- Managed releases, incident response (on call 24x7), and technical support
- Lead project from monolith app setup to microservices in AWS
- Led AWS migrations from on-prem (Centos) of entire Hotels.com website and maintained systems for performance and security

July 2010 - February 2012

Technical Support Engineer *Red Hat UK*, Farnborough, Hampshire, UK

- Provided technical support for Red Hat products, conducted root cause analysis, proposed fixes, and mentored new team members
- Managed critical customer issues and collaborated with product management and engineering.

October 2009 - April 2010

Senior Linux System Administrator *Nobug SRL (consultant for Yahoo.it)*, Rome, Italy, Italy

- Managed migration and support of Liferay platform for Yahoo.it, including architecture design, implementation, and troubleshooting.

November 2008 - October 2009

Application Support Analyst *Babel SRL (consultant for TelecomItalia SPA)*, Rome, Italy, Lazio

GDRP

I authorize the processing of personal data contained within my CV, according to GDPR (EU) 2016/679, Article 6.1(a).

- Supported web portal and ECM systems for TelecomItalia, managed LDAP integration, and performed system administration and scripting tasks.

February 2007 - November 2008

NOC Engineer *Babel SRL (consultant for Virgilio.it SPA)*, Rome, Italy, Lazio

- Maintained SUN Solaris and Linux servers for Virgilio.it ISP services, provided 24x7 support, and ensured high availability of services
